

YASH AHUJA

Software Development Engineer | Full-Stack Developer
+91 9650083563 | ahujayash460@gmail.com | New Delhi, India | GitHub | LinkedIn

PROFESSIONAL SUMMARY

Computer Science Engineering student with hands-on experience in full-stack development, database management, and scalable system design. Proven track record across two internships — from MERN stack web development to enterprise .NET systems. Seeking an SDE Intern or Software Engineer role.

WORK EXPERIENCE

Software Developer Intern | Sterco Digitex Pvt. Ltd., Noida Nov 2025 – Feb 2026

- Built a College Data Management System (.NET + MS SQL Server) for 1,000+ students; designed full database schema with referential integrity and normalization.
- Optimized complex SQL queries, reducing average response time by ~15%; implemented end-to-end CRUD operations for attendance, courses, grades, and admin records.
- Delivered Role-Based Access Control (Admin, Faculty, Students) using MVC architecture, increasing application efficiency by 20%.
- Collaborated with design and backend teams to deliver features iteratively; participated in code reviews and maintained documentation for smooth handoff.

Web Developer Intern | Tech-AD India Network Solutions Jun 2025 – Aug 2025

- Maintained and enhanced the company's MERN stack site — built dynamic UI components, RESTful APIs, and managed live database updates.
- Improved application performance and page load responsiveness through targeted code refactoring and query optimization.
- Resolved production bugs, managed dynamic content pipelines, and coordinated feature deployments using Git branching workflows.

PROJECTS

InningInsights | Next.js · Node.js · Express.js · Python (ML) · PostgreSQL · Docker

- Full-stack IPL score/winner prediction app with 70%+ ML accuracy; built responsive frontend with secure JWT authentication and real-time match stats.
- Designed scalable backend APIs and integrated ML model inference; containerised with Docker and established CI/CD pipeline for reliable deployment.

ReaderReviews Hub | MongoDB · Express.js · React · Node.js · JWT · BcryptJS

- MERN stack application managing 1,000+ book reviews with scalable user engagement; implemented secure auth using JWT and BcryptJS password hashing.
- Developed high-performance REST APIs with automated rating aggregation and pagination to support growing user data efficiently.

Chessy | HTML · Tailwind CSS · JavaScript · chess.js · Stockfish.js · Socket.io

- Engineered a real-time multiplayer chess web app with live gameplay via Socket.io and integrated Stockfish engine for in-depth game analysis.
- Built a fully responsive, cross-device UI with Tailwind CSS; handled game state synchronization and move validation using chess.js.

TECHNICAL SKILLS

Languages: C#, JavaScript, TypeScript, Python, Java, C++, Golang

Databases: MS SQL Server, PostgreSQL, MongoDB, MySQL

Concepts: RESTful APIs, MVC, JWT Auth, DSA, CI/CD, Scalable Architecture

Frameworks: .NET, React.js, Next.js, Node.js, Express.js, TailwindCSS

Tools: Git, GitHub, Docker, Prisma, Visual Studio, VS Code

EDUCATION

B.Tech – Computer Science & Engineering | Guru Gobind Singh Indraprastha University, New Delhi GPA: 8.79 / 10 | 2023 – Present

CBSE Class XII: 91% (2022–23) | CBSE Class X: 92.4% (2020–21)

ACHIEVEMENTS & ACTIVITIES

Google Developer Student Club (GDSC) – Core Technical Team Member | **Smart India Hackathon 2023** – Pre-Final Round Participant | **Robogyan Society** – Active Member
